

Film-Faced Shuttering Plywood

High-density formwork panel for repeat concrete pours

A quote-ready summary for slab decks, columns and wall forms. Actual re-use depends on handling, cleaning, support spacing and edge care; the quotation confirms the selected film weight and construction.

Attribute	Specification
Standard / bond	IS 303 BWR; phenolic (WBP) bonded
Film	120-220 gsm dynamic-resistant phenolic film on both faces
Core	Full hardwood construction
Thickness	12, 15, 18, 21 and 25 mm; 12 mm and 18 mm most common
Standard sheet	1220 x 2440 mm; 1830 x 915 mm and custom sizes available
Edges	Acrylic-sealed against water ingress
Expected re-use	20-40+ pours with correct handling and edge care
Supply	Full truckload ex-factory Perumbavoor in India; 20 ft or 40 ft container FOB Cochin for export

Commercial note

This sheet contains no public price. Quantity, sheet size, destination, availability, final tolerance and delivery terms change the offer and are confirmed by the sales team in the written quotation. Email sales@cochinwood.in or use the quote form at cochinwood.in/contact.
